

BidSync Quick Start Guide

Save Time. Bid Smart. Win More.

Thanks for joining the hundreds of thousands of suppliers simplifying their bid search. Below are some resources to help you get started.

BidSync Best Practices

Consistently Login

Login to your account at least three times a week. The more you interact with the system and rate your bids, the more it learns about your needs and delivers the types of bids you want to see.

Be Specific

Leverage detailed key words, not generic. Additionally, make sure to incorporate negative key words into your profile settings to exclude or minimize the frequency in which you see these types of bids. Refine your profile selections if you aren't seeing relevant results.

Stay Patient

Your continued interactions with BidSync will deliver more relevant opportunities the longer you use the service. It is important to remember that government opportunities are cyclical and depending on your industry, the number of bids can differ from month to month.
